

**The BMW 3 Series  
convertible**

318Ci  
320Ci  
325Ci  
330Ci

**People who keep an open mind**  
have higher expectations than others.

**Driving isn't an activity, it's an experience.**  
But of course that depends on what you are driving.

**The basis of good looks**  
is a classical profile.

**Heaven above.**  
And below.

□ **Sports seats:** The electrically adjustable sports seats for driver and front passenger, incl electric entry assistance to rear seats, provide optimum lateral support in every driving situation with their highly contoured seat sides. Seat height, seat back, seat angle and thigh support are individually adjustable.

□ **BMW Professional:** 4 x 20 W power output, 2-tuner frequency diversity (2 tuners constantly search for the best reception and switch inaudibly to the best frequency), integrated CD drive, automatic CD insert/eject, connection for BMW CD changer.

□ **Navigation system:** The navigation system with its 16 : 9 (6.5") monitor does not just guide you quickly and accurately to your destination via its display arrows or map overviews. Now you can even view two applications at the same time. The split-screen function means you can operate the navigation system and the radio, for example, in tandem.

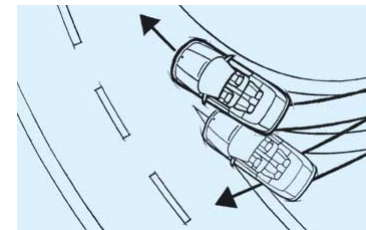

□ **BMW light-alloy wheels star-spoke styling** 44, 8 J x 17-inch, 225/45 R 17 tyres.

□ **BMW Light-alloy double-spoke 68M wheels:** Size: 7.5 J x 17-inch, at the front, 8.5 J x 17-inch at the rear. Mixed tyres: 225/45 R 17 at the front, 245/40 R 17 at the rear.

□ **BMW Light-alloy V-spoke 72M wheels:** Size: 8 J x 18-inch, at the front, 8.5 J x 18-inch at the rear. Mixed tyres: 225/40 R 18 at the front, 255/35 R 18 at the rear.

□ **Dynamic Stability Control (DSC):** An intelligent chassis and suspension control system for optimum driving pleasure, especially in curves. It recognises the risk of swerving from the start and keeps the vehicle safely on course.

□ **M sports package II:** An equipment package that provides almost infinite scope to meet the visual and technological needs for you to enhance the sporting appearance of your BMW 3 Series convertible. Includes among other things a special front air dam and rear apron, light-alloy double-spoke 68M wheels, sports seats with Alcantara cloth cover, Alu Black Cube interior trim and the M leather steering wheel.

■ **Softtop:** The softtop with its three-layer lining matches the overall shape of the convertible perfectly. The top affords effective protection against noise and extreme temperatures. The softtop is available in Dark Blue and Black.

□ **Wind deflector,** enables an enjoyable drive without annoying draughts or air turbulence in the shoulder and neck area. The wind deflector is easy to use, can be folded twice and thus only takes up little room when stored in the luggage compartment.

■ **Glass window in the convertible top:** The glass rear window is scratchproof, heatable and dirt-repellent, ensuring a good rear view at all times.

	W 1680	1260 (1680)	1260 (1680)	1260 (1680)

The technical drawings show the following dimensions:

- Front view:** Height 1372 mm, wheelbase 1471 mm, total width 1757 mm.
- Side view:** wheelbase 2725 mm, total length 4488 mm. Wheel dimensions are 964 mm (front) and 924 mm (rear).
- Rear view:** wheelbase 1483 mm, total width 1947 mm.
- Top view:** shows interior layout with a width of 1446 mm between the front seats and a depth of 1202 mm for the rear passenger area.

All dimensions in millimetres. Luggage compartment capacity 260 litres (9.2 cu ft), with roof storage box folded away 300 litres (10.6 cu ft) (to VDA standard).

<sup>2</sup> The figure quoted includes a 90 per cent tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

<sup>3</sup> The overall weight of the trailer may not exceed the maximum permissible trailer load plus the maximum permissible towbar download.

<sup>4</sup> The engines are designed for RON 98 fuel. The engines may be run on RON 91 fuel with a decrease in power and an increase in fuel consumption.

<sup>5</sup> The six-cylinder-in-line engines in the BMW 3 Series convertible meet the EU3/D4 emissions standard. The 318Ci meets the EU4 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle made up of approximately one third urban traffic and two thirds extra-urban driving (based on the distance covered).

CO<sub>2</sub> emissions are measured in addition to fuel consumption as such. Values in ( ) apply to vehicles with five-speed EH automatic transmission.
